Dariusz Begiedza

Software Engineer

Utrecht, Netherlands | contact@begiedz.dev | begiedz.dev | GitHub: begiedz |
LinkedIn: in/dariusz-begiedza

Summary

Frontend Engineer with a passion for clean code, user-centric design, and frontend architecture that scales. I craft performant, maintainable web apps using React and TypeScript, with strong attention to visual detail and business alignment.

If you're looking for someone who codes with precision and thinks like a product owner, let's talk or visit begiedz.dev.

Technical Skills

Core Technologies
- HTML5 · CSS3 · TypeScript
- React · React Router · Axios · Playwright · Vitest · TailwindCSS

Mobile & Backend
- React Native
- Node.js · Express · REST APIs · MySQL

Tools & Development Workflow
- Git · GitHub · Postman · Visual Studio Code

UI/UX & Design Systems
- Design systems awareness, Accessibility best practices, Pixel-perfect implementation
- Experience with multi-language interfaces (i18next)

Languages

Polish - Native
English - Professional working proficiency
Dutch - Basic proficiency

Interests

Technology trends, software development, visual arts, personal growth, electronic music, healthy cooking

Experience

Ulfsoft

Junior Frontend Engineer (TypeScript, React)
October 2024 – Present, Remote

Responsible for the frontend layer of web sites and web applications, focusing on building responsive, scalable, and maintainable solutions. Designed and implemented responsive UIs for client-facing platforms, ensuring seamless API integration and performance optimization.

Education

VIZJA University

Bachelor of Engineering - BE, Computer Science
October 2023 – Present, Warsaw - weekend remote studies

Specialization: Web Applications

Teb Edukacja

Course
September 2022 – June 2023, Gdańsk

Web & Mobile Applications Programming

Projects

Daily Blog

React · TypeScript · TailwindCSS · DaisyUI · React Router · TanStack Store · .NET REST API · Azure SQL · JWT

Showcases ability to handle real-world component logic, private routing, authentication and full integration with REST APIs.

Currency Calculator

React Native · TypeScript · external API

Demonstrates competence in mobile-first development and real-time data handling for enhanced user experience on both mobile and web platforms.

Notes

PHP · MySQL

Proves ability to implement full-stack logic and backend database interactions, with focus on reliability and data integrity in user-facing applications.
